

Before running Logic Pro 7 install the TranzPort plug-in using one of the following methods. See the "Logic 7 and TranzPort.pdf" file for complete details on operating the TranzPort with Logic Pro 7.

1. Copy the Logic Pro 7 TransPort.bundle file into Library/Application Support/MIDI Device Plug-ins. If the folder "MIDI Device Plug-ins" does not already exist in Application Support then it can be created.

or

2. CTRL+Click on the "Logic Pro" icon in your Applications folder and select "Show Package Contents". Click on "Contents", then "MIDI Device Plug-Ins". Copy the Logic Pro 7 TransPort.bundle file into the MIDI Device Plug-Ins folder and close the window.
